Hamburg Valve Repair 2023

Training Course for Mitral and Aortic Valve Repair
in cooperation with University Hospital Augsburg

Hybrid | On-site in Hamburg & via Livestream

22. - 23.05.2023
Hamburg, Germany | www.hamburgvalve.de

Universitätsklinikum Hamburg-Eppendorf

Dear colleagues,

the increasing importance of repair techniques in the current heart valve surgery using less invasive surgical approaches is a very stimulating development in the contemporary cardiovascular medicine leading to the continuous expansion of the surgical portfolio.

Hamburg Valve Repair 2023 will be dedicated to the cutting-edge developments and techniques in the minimally invasive and reconstructive therapies of mitral and aortic valve disease.

We strongly believe that cardiac surgeons and cardiologists involved in the treatment of patients with structural heart valve disease should be familiar with modern surgical reconstructive approaches in the current heart valve therapy and adopt the principles of valve repair techniques to provide the best available patient care.

To meet these expectations, we will offer an interactive two-days live surgery-based training course on aortic and mitral valve repair for cardiovascular and cardiothoracic surgeons. This educational course on minimally invasive / reconstructive heart valve surgery is organized by the Department of Cardiovascular Surgery, University Heart & Vascular Center Hamburg in cooperation with the Department of Cardiothoracic Surgery, University Hospital Augsburg.

Looking forward to welcoming you in Hamburg!

Hermann Reichenspurner & Evaldas Girdauskas

Program Day 1 (May 22, 2023)

08:30 Introduction
H. Reichenspurner, E. Girdauskas, S. Blankenberg

08:30 - 12:30 Primary mitral valve disease
Panel: H. Reichenspurner, E. Girdauskas, N. Schofer, S. Blankenberg, E. Lubos

Live case 1: Totally 3D-endoscopic mitral valve repair for Barlow's disease
Surgeons: N. Bonaros, Innsbruck / B. Kloth, Augsburg

ca. 10:00 - 10:30 Coffee break and visit of exhibition

Live case 2: Transapical transcatheter mitral valve implantation
Surgeons: L. Conradi, Hamburg / N. Schofer, Hamburg

- Mitral valve repair in Barlow's disease
  L. Müller, Innsbruck
- Endoscopic mitral and concomitant tricuspid valve repair *H. Reichenspurner, Hamburg*
- The importance of 3D-echocardiography for surgical and interventional MV repair *D. Kalbacher, Hamburg*

12:30 - 13:30 Lunch break and visit of exhibition
12:30 - 13:15 Lunch Symposium

13:30 - 14:00 Honored guest lecture: Minimally-invasive mitral valve repair – From the early days to daily routine
F.W. Mohr, Leipzig

14:00 - 18:00 Secondary mitral and tricuspid valve disease
Panel: J. Schofer, H. Treede, N. Bonaros, D. Kalbacher, P. Raake, M. Di Eusanio

Live case 3: Totally 3D-endoscopic mitral and concomitant beating-heart tricuspid valve repair
Surgeons: L. Conradi, Hamburg / S. Pecha, Hamburg

Live case 4: Totally 3D-endoscopic mitral valve repair for Typ IIIb secondary MR
Surgeons: E. Girdauskas, Augsburg / B. Kloth, Augsburg

ca. 15:30 - 16:00 Coffee break and visit of exhibition

Program Day 1 (May 22, 2023)

Live-in-the-Box: Combined transaxillary mitral valve repair and aortic valve replacement
Surgeon: M. Di Eusanio, Ancona

- Subannular repair in SMR: The Hamburg experience
  J. Pausch, Hamburg
- Transcatheter Edge-to-Edge Therapy for SMR in all patients
  Pro: J. Schofer, Hamburg | Con: H. Treede, Mainz

Program Day 2 (May 23, 2023)

08:30 - 12:30 Aortic root disease
Panel: H. Treede, C. Detter, B. Wein, B. Goldmann, G. Laufer

Live case 5: Aortic valve repair/remodeling
Surgeons: H.-J. Schäfers, Homburg / J. Petersen, Hamburg

ca. 10:00 - 10:30 Coffee break and visit of exhibition

Live case 6: Minimally-invasive aortic valve repair with internal annuloplasty
Surgeons: E. Girdauskas, Augsburg / T. Owais, Augsburg

- Echocardiographic assessment of AR and intraoperative visualisation *C. Sinning, Hamburg*
- Hemodynamic monitoring during and after cardiac surgery *L. Schulte-Uentrop, Hamburg*
- Importance of annuloplasty in aortic valve repair *E. Lansac, Paris*

12:30 - 13:30 Lunch break and visit of exhibition
12:30 - 13:15 Lunch Symposium

13:30 - 14:00 Honored guest lecture: Aortic valve repair – A lifetime experience
H.-J. Schäfers, Homburg

Program Day 2 (May 23, 2023)

14:00 - 18:00 Bicuspid aortic valve disease
Panel: E. Girdauskas, Y. Al Assar, M. Hübler, A. Schäfer, S. Elvinger

Live case 7: Bicuspid aortic valve repair with external annuloplasty
Surgeons: E. Lansac, Paris / B. Sill, Hamburg

ca. 15:30 - 16:00 Coffee break and visit of exhibition

Live case 8: Parasternal aortic valve replacement
Surgeons: G. Laufer, Wien / L. Conradi, Hamburg

- Ross procedure in non-elderly adults
  J. Petersen, Hamburg
- Concepts of ERAS and Ultra-, Mini-Fast-Track
  S. Stock, Augsburg
- TAVI in all bicuspid aortic valve diseases
  Pro: N. Schofer, Hamburg | Con: T. Owais, Augsburg

18:00 Summary, Adjourn
